The inquest was then adjourned ustil yesterday

germoon at 2 o'clock. The news of the accident had rawn together thousands of persons, who crowded ound the ruins, and rendered the presence of a large solice force necessary to keep them back. They cand on in silence upon the scene of the catastrophe of the previous day, and contented themselves with previous and theories as to the cause, and to whom

blame was to be attached.
The testimony yesterday was merely of a theoretical store, the examination being confined to masons and shers who were experts in digging and making excaations of this nature. The substance of the testimony sinced went to show that, from the experience of men in that line of business, it was entirely unsafe to uve made excavations as there made, without taking he precaution to shore up the bank so as to prevent geidents that might arise. Those examined yesterday sed looked at the back and the nature of the earth and thought it was insecure to work at it without saving it properly shored. They agreed that it was the business of the contractor to have the work

goperly secured against accident.
Ralph Kirkman, one of the witnesses, went to see me work on Friday morning, and told those at work sat they were foolish in working there under the cirpostances, that it was not rafe.

After the examination of these witnesses, copies of the contracts were put in evidence, by which it appears that the contractor, Berky, was required to secure the surrounding buildings against damage and conduct the

work securely.

The case was then given to the Jury, and after son time spent in consultation, they determined to have the earth that had fallen turned over in order to ascertain whether or not any more bodies were beneath the ruins. Workmen were engaged and preparations made at once to determine this fact, until which no verdict wil be rendered.

"It is certainly with pleasure that we announce the probable fact that P. T. It is said that he has bought all the claims against himself for from five to twenty five cents on the dollar, with the exception of some \$15000 held in and about Daubury which he will probably have to pay in full. The whole of the vast property assigned by him for the benefit of his creditors has again passed into his hands, and he is now re-furnishing and re-fitting 'Iranistan' in good style for his future and permanent residence."

FIREMEN'S PARADE. - Guardian Engine Company

At the Twenty-seventh-street depot they were received by a large body of their friends in the Department, and escorted, under the direction of Mr. G. Joseph Ruch, through the city. The procession was a brilliant affair, lit up with torches, colored lamps and calcium lights, and attracted a large share of attention. It was composed of the Board of Engineers, Hose Company No. 57. Engine Companies Nos. 29, 7 and 3; Hose Company No. 5, Engine Company No. - of Williamsburgh, Enine Company No. 24, Hose Company No. 40, Engine Company No. 6, Hose Company No. 24, Engine Company No. 16, Hose Company No. 35, Engine Companies Nos. 39, 15 and 48; Hose Companies Nos. 42 and 44, Ergine Company No. 12, Hese Company No. 46, and Engine Company No. 20. FIRE MARSHAL MADE A POLICEMAN. -On Saturday last Fire-Marshal Baker was sworn in as a Special Policeman for the City and County of New-York. Mr. District-Attorney Hall made the application, believing it to be necessary for Mr. Baker to be armed with Police authority in order to more fully carry out the duties of his office. Gen. A Suspicious Case-Perhaps MURDER.-Coroner Connery has been called upon to investigate the cause of death of James O'Mahony, who kept a porter-house at No. 71 Catharine street, which place he left on Wedneeday night last, near 12 o'clock, for the purpose of getting his supper at Fulten Market. He did not return, and the day following, his family becoming much alarmed at his absence, search was made, which resulted in his remains being found in the dock foot of Market street, East River. Some cuts and bruises were perceptible on his head and face, but whether the violence was inflicted before or after death, or whether the injuries were sufficient to cause death, remains to be determined by a post-mortem examination. His coat was found on the pier where the body was discovered. A small amount of money was in his pockets, but his gold watch and chain were missing. some of the friends of deceased are of the belief that O'Mahony was attacked by highwaymen, who robbed bim of his watch, after which he was killed by them and thrown into the dock. The deceased was formerly sergeant of the Montgomery Guards. The Corone will to-day continue the investigation relative to the mysterious death of Mr. O'Mahony.

SUPPOSED DEATH BY DROWNING .- An inquest was held at Bellevue Hospital by Coroner Hills, on the body of an unknown man, who was found floating in the dock foot of Delancy street. It had been rumored that the deceased had a wound on his forehead, similar to that a pistol-bullet would make, but no such discovery was made by the Coroner, and no marks of violence, such as would cause death, were to be found on the body. Coroner Hills held an inquest, and from the evidence adduced, the Jury were of the impression that death was the result of drowning. The decessed was about 35 years of age, and apparently a native of Ireland. The body had been in the water four or five Poughkeepie trains at 12:30 and 3:30 p. m., instead of dark figured-silk vest, calico overshirt, red fianel

urdershirt, and heavy brogan shoes. The general appearance of the deceased was that of a dock-

DEATH FROM BURNS -Coroner Hills held an in quest at No. 340 Seventh avenue on the body of Elizabeth Elhott, who died from the effects of barns. It appears that on the evening of the 1st inst., the de reased was warming some alcohol in which to bathe her sick child, when the liquid took fire and in an instant her clothes were in a blaze, and before the flames could be extinguished she was burned over the body in the most frightful manner. INDICIMENT OF JAMES SHEPHERD FOR ARSON IS THE FIRST DEGREE -It will be remembered that James Shepherd was apprehended in August last, charged with willfully firing his house in Fifty-third etreet, near the Tenth avenue. The building was de-stroyed, and the charred remains of Shepherd's wife was found among the ruins. After a careful investigation of the case by the Fire Marshal, before Justice Davison, the magistrate committed the accused to prison. On Tuesday last Fire-Marshal Baker and others were subpensed before the Grand Jury, and that body found a true bill of indictment for areon in the third degree against Shepherd. The prisoner will probably be tried in November.

ALLEGED ATTEMPT TO DEFRAUD AN HEIR .-! woman named Madeline Caroline Lindower, and a boy named Andrew Webber, were apprehended on Saturday, charged with attempting to defraud the heirs of Charles F. Webber out of certain property. It appears from an affidavit made by Charles F. Webber, of No. 363 Ninth avenue, that his father died a week ago last Friday, at No. 20 Thompson street, and that he and his mother claim to be the only heirs. The old man left about \$300 in gold, several gold watches, and due-bills for \$400-in all about \$1,000. Webber alleges that the property above-mentioned was stolen by the accused. A TRUE WAY FOR THE TIMES,—One of the most striking incidents connected with the present financial convolution is the uncomplaining sincity with which many first-class house syield to the general demand for a reduction of prices. Some of them were caught at the commencement of the business season, with unusually extensive stocks, upon which they had every reason, at the time of purchase, to expect a corresponding amount of profit; yet they churchase, to expect as corresponding amount of profit; yet they churchase, to expect pains for the time being, and even submitting to a direct loss over and above the drawback of their current expenses.

Among the concerns that have made these concessions on a sweeping scale, we may instance the large clothing house of 5D Dsvt.18 Co. The resultion found them in possession of fashionable clothins, manufactured for the present and approaching season, worth upward of haif a million dollars. Promptly, and without the slightest parade, they announced that the whole of this splendid stock would be disposed of under cost, and the heavy cash sales which they are now making on these terms, involved of course, a heavy ascribe.

Establishments of this caliber and standing which have never descended to a clap trap in their business intercourse with the public, are believed when they make such a statement at such a crisic and hence they continue to above has large an amount of custom are believed when they make such a statement at such a crisic and hence they community is the sole incentive te such a course, for every merchant is more or less anxious to realize in the present disorganized condition of the Money market; but it is none the less true that the loss is submitted to with a good grace, and that consumers are greatly benefitted by the movement.

LAW INTELLIGENCE.

MARINE COURT-Oct. 17.—Before Judge Thompson

This was an action on a promissory note, dated Dec.

19, 1856, made by the defendant to the praintiff. The consideration of the note was that Benton, who is a lawer, should search the title of the Presbyterian consideration to what is familiarly known as the Old Benton. consideration of the ficte was that Benjon, who is a lawyer, should search the title of the Presbyterian congregation to what is familiarly known as the Old Brick Church property, opposite the City Hail Park. The defendant, with Mr. Keep and Mr. Wesley, were the purchasers from the Presbyterian Church, and were negotiating a sale of the same to the Federal Government for a Post-Office site. It appears from the testimosy that Mr. John McKeon, the United States District Attentoy for this District, was directed by the Attortey General of the United States, Mr. Cuching, to make a search for the title of the property in question. Mr. James, one of the owners, employed the plaintiff to perform that service, for which he gave the note in question. On the trial, Mr. James testified, among other things, that Mr. Benton was to make the search and get the trial, Mr. James testified, among other things, that Mr. Benton was to make the search and got the certificate of Mr. McKeou that the title was all right. In this particular he was substantially corroborated by the evidence of Mr. Keep. Both these witnesses further testified that the day after the note was given (the note was payable tifteen days after date) Mr. Benton called on Mr. James and requested payment on the note of \$250, alleging that he must have that amount in order to get Mr. McKeon to certify to the correctness of the search—giving them to understand that that amount was to be given to Mr. McKeon as a bribe to induce him to make the required certificate: that Mr. Benton agreed to make the search and get the approval of Mr. McKeon. Mr. Benton testified that at the time of this transaction he was the law-partner of Mr. Joachimssen, the Assistant United States District Attorney; that he obtained the \$250 referred to for the purpose of meeting the disburse. states District Attorney, that we obtained the scarce referred to for the purpose of meeting the disbursements incident to the search; that he paid about \$45 to clerks and others for making a part of the searches, and \$125 to the Assistant District Attorney as a counsel fee for his services in the matter; that he never told either Mr. James or Mr. Keep that he wanted money to bribe Mr. McKeon; that he only engaged to search the title, which he did without any objection whatever from the defendant, and that he did not agree to get the certificate of Mr. McKeon as th the correctness of the certificate of Mr. McKeon as to the correctness the search. Mr. James testified that Mr. McKeon never certified to the correctness of Mr. Benton's search. For this reason, the defendant maintained that they had proved an entire failure of the considera tion of the note on which this suit was brought. M. James also testified that he was advised from Was James also testified that he was advised from Washington that for \$7,000 the then Attorney-General of the United States (Mr. Cushing) would accept the title and take the property, but that this information did not come from Mr. Cushing. Mr. Joachimssen testified that at the time referred to the Government only required the District Attorney, in the case of proposed purchases of land, to send on the abstract of title, together with such suggestions in relation thereto as thought proper to forward to the appropriate department, but that the Government never purchased. THE DISCHARGED FOLICEMEN.

The case of Richard Gembling, a discharged policeman, has been brought here by certiowari. At the opening of the Court this morning Judge Dean stated that he had been retained by some four numbred and fifty policemen situated similarly to Gambling. It will be decided whether a large number of the old force were legally discharged, or whether they are still members thereof and entitled to future employment and their back pay.

THE CERTICRARI IS MAS. CLENTROBAN'S CASE.

MITS. Cunningham was in Court this morning to hear the decidion on the certiorral to review the proceedings of Judge Peabody, which resulted in agmitting her to bail. Her counsel, Mr. Chatfield, stated that she was present in obedience to an order, but under protest that the Courtbad no jurisdiction, because the had not been present when the certiograf was argued. He size argued that the return to the writ should be corrected in two respects—first, where it stated that the prisoner was before the Recorder when the motion was made for bail; and secondly, where it is stated that Judge Peabody was acting as Commissioner, which Mr. Chatfield contends was not the case. The first correction was made by Mr. Hall who remarked that, lest he might seem to have neglected his dity in not having required Mrs. Canningham to be present before the Recorder, he would state that, in his opinion, her presence was not required by law. It is only in an actual trial that the prisoner must be in Court.

The Court then rendered its decision. The view taken of the case rendered it unnecessary to pass upon the question whether Judge Peabody and difficient ground for admitting the prisoner to bail, provided he had jurisdiction. The matter, having been accided by the Recorder, was res adjudicated, and Judge Peabody had no right to receive the application made to him proper course would have been to obtain a reversal of the Recorder's decision.

The Court add that they should send back the case to the Court of Seasions for such order as to the granner's recommittal to contody as accumed good to that tribunal.

Mr. Hall thereupon remarked that the whole record was before the Supreme Court, and they should make the order themselves, and he the

law still in custody, incomment as site was under recognisms—the bendamen being in effect officers of the Court. He size wished an opportunity to argue the question whether build not be allowed on the ground that the facts are not the amore as when the case was before the Recorder. It was agreed that this matter should be argued on the Eth, and in the mean time it was ordered that the prisoner remain at large out the two recognizances in force.

By agreement of coursel the piace of trial is change I to Orange County. The prisoner will be tried about the security Treeday of November.

The rapid advance in Stocks since the suspension of the banks was followed to day by a natural reaction of I to 3 P cent. The transactions were to large extent and mainly for cash.
